

ELECTRICAL SKILLS TRAINING

STUDENT/PARENT INFORMATION

Regina District Industry Education Council (RDIEC) represents Regina Public School Division, Regina Catholic School Division, Prairie Valley School Division and File Hills Qu'Appelle Tribal Council. The RDIEC's **Skills Training (formerly Career Connections)** program provides an opportunity for interested Grade 10-12 students to obtain entry level skills and industry recognized safety training certification. Participating students also may have the opportunity to obtain a high school credit upon completion of the work experience component. This program involves 3 steps. The first 2 steps are mandatory for any student wanting to attend **Skills Training**. For more information about Skills Training, please visit www.RDIEC.ca

<p>1) Skill Acquisition</p> <p>25 hours (Mandatory)</p> <p>This is an introduction to the career area and basic skill development. This can be anywhere from a 25 hour commitment. During this phase, the students will acquire industry specific entry level skills in the career highlighted. During the last hours of this experience, potential employers from industry may be invited in to meet the students and view the skills they have learned. The benefit to industry is to identify students that may have a skill set conducive to employment with them.</p>	<p>2) Career Safety Education Program</p> <p>25 hours (Mandatory)</p> <p>Students will have to complete the following:</p> <p>a) Young Workers Readiness Certificate, WHMIS 2015, Mental Health Wellness Training, **</p> <p>b) Hearing Protection & Respiratory Protection Training</p> <p>**DUE April 9, 2025. To COMPLETE the courses go to www.sasksafety.org/training/youth/career-safety-education</p>	<p>3) Career Work Exploration High School Credit(CWEX)</p> <p>50 hours (Optional)</p> <p>If students want to continue this program, there may be the option for them to complete a work experience placement related to the skills they acquired and earn a Career and Work Experience credit (CWEX) on their high school transcript. The total time commitment must be 100 hours. In order for students to be able to access this opportunity, they must complete all the skill acquisition and safety training.</p>
--	---	--

This **Skills Training** will focus on the Electrical Trade with the International Brotherhood of Electrical Workers (IBEW) Local 2038, hosted at 1920 McAra Street. Students should be interested in the skilled trades and have time in their personal schedules to fulfill the commitment of this program. Students must dress appropriately for working in this industry. **Steel toed shoes are required (which can be borrowed from RDIEC)** Students will meet at the IBEW hall for each of their skill building sessions.

The Career Safety Education Program is offered by the Saskatchewan Safety Council in partnership with WorkSafe Saskatchewan. **Students will complete the Career Safety Education online at no cost.** The value of the Safety Training is approximately \$250

Regina District Industry Education Council

This is a great opportunity to receive both entry level skills and safety training at no cost. Attendance of this training is crucial. The time commitment is significant so please consider this opportunity carefully!

If you have any questions or concerns, please feel free to contact marcel.lorenz@rdiec.ca or 306-530-6907

Students who are selected for the program will be contacted by the Program Facilitator, Marcel Lorenz via text. It is very important that they maintain contact with him in case of weather issues, or other changes need to be made. Students who are enrolled in this program will need to obtain an ICT-CLT number. ICT-CLT registration details will be sent to the students directly. Supper will be provided each week for students at no cost.
